**Hike Description:** This short but inspirational hike provides clear paved paths and footbridges throughout the six-acre Iao Valley State Park. The Iao Valley is an ancient and sacred site.

This spiritual center lies in a lush green gorge in the West Maui Mountains and is home to the Iao Needle, or Kukaemoku. This moss-covered volcanic rock shoots up 1,200 feet from the floor of the valley. All total, this ancient stone is over 2,000 feet tall, a part of Hawaiian legend, and one of the most photographed spots in the Hawaiian islands.

Iao Valley is also the spot of the Battle of Kepaniwai, which made way for the union of the Hawaiian Islands in 1790. The Iao Valley’s Hawaii Nature Center has child-friendly ecology exhibits, an ethno botanical plant garden, shady tropical forests, and waterfalls that flow into natural swimming pools.

The ceremonious walk up the hundred or so steps to the scenic view from the Iao Needle Overlook is worth every step. The view is serene and breathtaking. From the overlook you can see Wailuku, the Iao Valley, the Iao Needle, and the steep valley walls. From the nature trail that runs through the tropical botanic gardens beside the banks of the Iao Stream to the shady tropical forests, this is one hike that the whole family will love.
